

# HOLOFIT Pro Shopping Guide

## What do I need for HOLOFIT?

- 1) Compatible PC-VR Headset
- 2) Compatible Fitness Machine
- 3) HOLOFIT Membership

## Let's first make sure that your PC-VR Headset is compatible with HOLOFIT.

The following PC-VR Headsets are compatible with HOLOFIT:

- HTC Vive (Pro)
- Oculus Rift (S)
- Samsung Odyssey+
- Lenovo Explorer
- Acer WMR

## The next thing you'll need is a compatible fitness machine.

To use HOLOFIT Pro on your fitness machine, you have to be able to connect your machine to your computer via a USB or C-Safe cable.

Check whether your rowing machine, bicycle or elliptical machine's performance console has the USB or C-Safe cable output.

If it does, then chances are your machine is compatible with HOLOFIT, but our recommendation is that you try it on your machine using the free demo mode.

Here is the list of machines that we have tested and know are compatible.
